MANAGERS OF COMPANIES OR AGENTS IN THE FIELD.

It contains the latest and freshest insurance news from every quarter, bright and sparkling correspondence from the principal insurance centers of the country, comments on current insurance events of the day, and able discussions on the principles of Life, Fire, Accident and Miscellaneous Insurance.

A most valuable feature of **THE SPECTATOR** is the presentation from time to time of carefully prepared and voluminous

COMPARATIVE STATISTICAL EXHIBITS

of the business of Life, Fire and Miscellaneous Insurance, usually in a comparative form, showing the business transactions and detailed experience of all companies for a series of years. These statistics are compiled by experts having no personal interest to serve, but are prepared solely for the purpose of analyzing the subject.

THE MOST EMINENT WRITERS

on Insurance in its various forms are contributors to its columns, and the aim of its proprietors is to present the science of the insurance systems in vogue without prejudice to any and in fairness to all. It is in this spirit that Fire, Life, Industrial, Accident and Employers' Liability, Natural Premium Life and Miscellaneous Insurance Companies, Associations and Societies are treated without fear or favor. It also gives the current news from different insurance centers each week, and each number is

AN EPITOME OF INSURANCE AFFAIRS

that are of interest to the profession at large. In short, it is the ambition of its proprietors to make **THE SPECTATOR** an invaluable journal to every person identified with the insurance interest in any capacity, and its unprecedented success is evidence that their efforts are appreciated.

Any business man entering the insurance profession as manager, agent or broker should address The Spectator Company for information regarding the various treatises and other instructive publications printed in the interest of the particular branches of insurance. Managers and general agents should see that their sub-agents are supplied with the various publications issued by it in behalf of insurance. The public interested in insurance from a fire, life or casualty standpoint should secure copies of the works of reference, containing reports on insurance companies, issued by it.

A complete Catalogue of insurance works will be sent to members of the insurance fraternity, or to any person, on receipt of ten cents to cover postage.

Attention is called to the condensed Catalogue of the insurance works of The Spectator Company presented on other pages of this issue.

Reasons why It should be Preferred by those Desiring Insurance

It has the benefit of sixty-four years' successful experience.

Its business is conducted on the mutual plan, thus enabling members to get their insurance at cost.

It has always paid large dividends, thereby making the cost of insurance low.

It maintains a reserve for the protection of policyholders, on the Massachusetts Standard, the highest basis required by the laws of any State.

It has a large surplus over the legal reserve and all other liabilities.

Its conditions as to travel and residence are very liberal.

Its policies are protected by the non-forfeiture laws of the Commonwealth of Massachusetts, which secure greater benefits to members than those of any other State.

It has always maintained a high reputation for just and liberal treatment of its members by promptly adjusting and settling all policy claims, a proof of which is the fact that no judgment has ever been rendered against it.
